3. Let's talk in the morning on agenda. The only purpose of tomorrows meeting is AVX so we will not be discussing RAC or Lally report. We will discuss IRA Mod efforts, Phase III and consider our next steps **Ex. 7(a)**

Maybe we should get some first thoughts on the Phase III from Steve, Mike and Robert for tomorrow's meeting although unlikely that they have had a chance. I can see if they have any?

Here's a quick brain dump on agenda items for your consideration:

Non-Responsive Record

- Immediate concerns
- Length of time for pilot studies/uncertainties in schedule
- Remedy should not depend on EPA cleanup
- Feasibility of AVX monitoring remedy success should not be dependent on EPA's cleanup
- Aerovox site definition
-

Meet with AVX

- When to meet
- What to Include in initial discussion
